

# Autumn/Winter 2018-2019 | Oxidized Glamour

There is a beauty in the natural process of things that are aging. Bronzed metals reminiscent of industrialized revolutions; Muted purples inspired by autumn leaves whipping to the ground and winter grays from damp skies inspire this trend analysis for fall/winter 18-19. Distressed wood gives way to the elements of time, rustic beauty of ancient coins trigger the sounds of bustling merchants in open markets. Bold aromas of signature coffee blends that awaken the senses.
