

COLOR QUARTERLY | 2018 Q1

Designers from over 80 brands and retailers rely on CSI colors to select their seasonal color palettes. The Color Quarterly report offers color direction and validation to fashion and product designers. The data is selected from the top 100 colors that brands and retailers choose for their seasonal palettes. We combine the knowledge of popular color selection from our ColorWall, with sales data to bring you real-time information every quarter!
