

Autumn/Winter 2015-2016 | Humble Nature

Shapes are smooth and pristine, lines are soft and graceful. Less is more, simple is utterly beautiful.

Nature inspired elements bring harmony to our surroundings and resonate with our need for inner peace. We follow the path to perfection and purity with devotion, seeking the most important quality of the objects, letting them speak to us. We listen and translate their silent language. There is no need for adornments or elaborate prints; the construction and integrity of the design is everything.

“Humble Nature” Color Combinations

Soft vanilla, warm clay, linen beige and rosy nude, are modest and clean, conveying lightness in the palette. The browns are elegant, with earthy feel; even the black in the palette is softer.

The goal is not to achieve contrast, but to obtain unity and balance in the final design.
