

Top ColorWall™ Colors of All Time | Green

With data collected from 10+ years of ColorWall™ usage across more than 100 brands and retailers, we would like to present the “Top ColorWall Colors of All Time”. The colors chosen for this report were selected as top performing colors from more than 80,000 seasonal color palettes.

In times of uncertainty, it is helpful to look back on things we can count on. So now is a good time to see what colors we have relied on in past seasons.

In this series, we will present the colors by hue.

Green

There are 3 colors in the Green category, which can also be used in level form.

CW0601241 - A deep green on the blue side

CW0904542 - A light jade green

CW0903768 - A muted emerald green on the bluer side / This is our most popular Green in sales and palette usage
